# About Us

Welcome to **Trusted International Courier & Cargo Services Private Limited**, Our premier provider of comprehensive courier and cargo services based in Kolkata, West Bengal. **Miss. Firdous Ara** serves as the **Managing Director for Trusted International Courier & Cargo Services Pvt Ltd**, bringing **7 years of valuable experience to her role**. We have dedicated ourselves to bridging distances and connecting businesses and individuals through reliable, efficient, and cost-effective logistics solutions. Whether it's a critical document across town or substantial cargo across the country, we handle every shipment with the utmost care and professionalism.

# Mission

- Focus on Reliability & Local Service.
- Reliable, timely, and efficient courier and cargo services.
- To Create value and make a difference.
- Match our customer's requirement.
- Efficiency in cargo management service.
- Enhancing the logistics business.

Progressive use of information technology.

# Vision

- Provide Reliable Services.
- Trusted Services to the Customers.
- Beyond their expectations.
- Delivered with integrity, speed, and care.
- Technology-driven courier and cargo services.
- Ensure a safe and reliable delivery of goods.
- Work strongly towards strategizing for future growth.

# International Services

- **Trusted International Courier & Cargo Services Private Limited** is committed to provide the best and most cost-effective and reliable courier and Express solutions, connecting India with the global community in the fastest and most efficient way possible.
- Fast, Safe & Secure International Shipping for Your Parcels & Documents.
- Moving can be stressful. Simplify your international move by dealing with one company to pack, move and deliver to the door. We help international travelers to send their goods home, or to their next destination.
- We are the experts in sending fragile and sensitive goods.
- No matter what size or weight, your personal goods are in safe hands for international travel. Transport your personal goods via air or sea or use intermodal transport for a comprehensive service.

# Domestic Services

- **Trusted International Courier & Cargo Services Private Limited** has developed a range of professional services to suit businesses, including corporations, government departments, small and medium sized businesses, online retailers and e-commerce sellers.
- Our services range from postal deliveries, express services, and general freight and furniture removals via air and sea.
- Courier Services with Priority & Express Delivery Times for Urgent Consignments. We can manage the Express of urgent deliveries, as well as provide ongoing services.
- We have multiple Premium and priority express delivery options available on an established schedule.
- Efficient and reliable air freight services offer fast delivery across the country.
- We provide standard and customized Surface courier road and Trains services, whether you need to send your delivery a short distance or across the country.

# 3PL Services

**Trusted International Courier & Cargo Services Private Limited** specializes in third-party logistics (3PL) services that provide brands with the opportunity to streamline their operations when entering new markets. By leveraging our established infrastructure, companies can avoid the hassle of building storage and logistics networks from scratch. Our comprehensive solutions include warehousing, transportation, and distribution, allowing brands to focus on growth while we handle the complexities of logistics.

# IT Support

## MOBILE APPS

### WE INTEGRATE ADVANCEMENTS OF MOBILE TECHNOLOGY

As a logistics business eager to make full use of 'Digital India' initiative, we have custom designed a mobile application that allows us to simplify our business processes and allows us to access and manage everything related to our business on a mobile, be it booking/dispatching consignments, managing permissions, tracking and managing the delivery schedule.

# LOGISTICS API SERVICES

## API AS A SERVICE IS A SOFTWARE AS A SERVICE (SAAS)

Primarily exposed as an API (application programming interface). It allows users to explore functionality of Web Services including Google Maps, Amap API, payroll processing, and credit card processing. We provide API to our Customers, that can integrate our systems, in API Daily MIS Report by auto email.

## Value Additions

- ➔ Single Window Solutions for AIR and Surface.
- ➔ Centralized monitoring & dedicated 1 point contact
- ➔ Customized Solutions - as per customer request for vehicles
- ➔ MIS & Billing.
- ➔ Track & Trace
- ➔ Well Developed Infrastructure. Tailor made solution along with 3PL.
- ➔ Process base services with SOPs determining Standard which are adhered at each of the level
